Interesting and a unique game.

Very nice explanation of Syn, Biology to make it interesting, neat and nice!!

Very nice game for my child. He enjoyed it.

I like the game it is nice

Nice game

Its very interesting

It is very nice game.

Its an interesting game!

Its very enjoyable.

very educational

Experiment	Remarks	Date
	Increasing to know details about GEM and Science behind the same. It's Interesting	
	Good can understand. Interesting. Wants to know about more Good!	
	Good. Topic, interesting too! Good. Knowledgeable.	
	Fluorescent properties are clearly seen in E. coli by the proteins by microarray as well.	
	It's very interesting. It's good.	
	Very Interesting & Good	
	Very interesting & informative.	
	Very nice	
	very interesting	
	Awesome explanation	
	Interesting and mind mentally relaxing game.	
	great initiation towards the topic and satisfactory explanation Synthetic Biology and GEM related concepts were nice and informative with good explanation	
	I used to believe in God but now I believe in Syn Bio	
	It is very good and interesting	
	It was very good and amazing

Experiment:	REMARKS
	Very Interesting. Good concept.
	Exciting
	Very industry, innovative & simple way to explain explain genetic engineering.
	Well explained, keep going
	A very good concept explained through an interesting game.
	Nice Idea People
	Very Nice and Interesting and Brainfull.
	Awsome!
	An intuitive approach to understanding iGEM
	Nice concept, interesting,
	Nice
	Very informative about synthetic biology. iGEM is a good initiative to promote the future pretty good.
	Interesting
	Nice way of grabbing ppl's attention. Good Concept.
	I am a Astronomy Olympiad medalist but my ^{topic} about Biology changed after the presentations and I will take Biology.
	A unique way to understand bio bricks, as a audience I can say that genetic engineering is too important for people that needs.
	Good!
	Nice
	Nice
	No. and - AMAZING EXPERIENCE. WELL RECORDED.

Experiment: REMARKS
<p>Pond water under the microscope.</p> <p>Agar & Camouflage</p> <p>Truly amazing. The diversity (bio) of microbes is striking. Excellent sample collection & narration. Displays great understanding, enthusiasm & dedication.</p> <p>These guys are really exceptional. The explanation is very useful. May God bless them All.</p> <p>It was very interesting, worth knowing. I was amazed and interested and new thing to learn.</p> <p>Very impressive. Appreciates to all 1st year students. You are all remarkable. Good effort.</p> <p>Interesting & easy way to teach smaller kids.</p> <p>Great & interesting aspects of synthetic biology. Thanks for the explanation & the perspective ☺</p> <p>Awesome</p> <p>They get gold by human fraction!! LOL!</p> <p>Nice to hear about GENE</p>

Shravan Sudershan	944900984 9886221350	shravan@gmail.com Sudershan@j2s	29/2/20	Nice one to know the fls Good to know.
Parameswaran	9880812863	Parameswaran s.d.in.abb.com	05.15 PM	
Abhijeet	9767047700	abhijeetb@ iisb.ac.in	6:28 PM	Glad to know about synBio idea. Hope it finds practical applications/usage in days to come. Good luck to Team! All the exhibits and exp. were excellent. Efforts put by students are incredible. I think this event of open day can be stretched to two days as many fail to see all the departments.
